## Solidarity from Kommunal to all workers in Finland defending the Nordic model

On behalf of Kommunal's more than 500 000 members, I write to you as we are very alarmed by the Finnish right-wing government's onslaught on labour rights and social security. It's an attack on the trade union movement and on all working people.

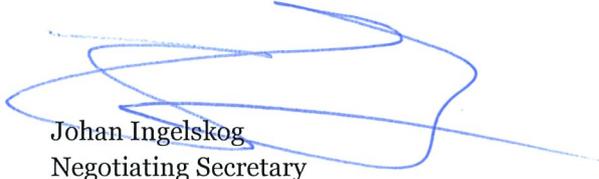

I am appalled by their attacks on social dialogue, collective agreements, tripartite negotiations, social security systems, weakening of job security, basic elements of workers' rights – the whole welfare state!

It is completely unacceptable that they tear the Nordic model apart and we condemn it totally.

We stand united with you and wholeheartedly support everyone taking part in the political strike action.

Wishing you strength and success!

In solidarity,  
Kommunal
